Science Is Elementary

[CC]

Grades K–2 14–15 Minutes/10 Lessons 500

This series introduces students to hands-on, exploratory science encounters by investigating the scientific phenomena of biology, physics and the earth. An exploration section begins each lesson, illustrating the topic with a variety of examples. The concept development section asks students to observe, classify and compare situations as they begin to comprehend the scientific principles. Finally, an application segment systematically demonstrates the concept with real-world situations. Each lesson concludes with a connection between the scientific theme and other disciplines or cultures and a challenge to solve a "You Try It" problem. (© 1993)

Seared Souls: Voices of the Holocaust [CC]

Grades 9–12 6–16 Minutes/9 Lessons 975.5

These lessons feature interviews with South Carolinians who experienced the horrors of the Holocaust. Using firsthand accounts, these victims and liberators tell their stories so that viewers may better understand this tragic period in history. Illustrations, photographs and film footage keep their stories alive, in the hope that this type of horror can be prevented in the future. Individual lesson titles are listed for your information; however, there is only one catalog number: 1694-0000. (© 1992)

NOTE: Teachers need to preview these programs before use due to topic (lesson 18) and language (lesson 20).

Rights: Unlimited

Shamu TV REV
Grades K–8 30–45 Minutes/20 Lessons 590

This resource takes students into the field with scientists; backstage with animal trainers; on rounds with veterinarians; and face-to-face with sharks, killer whales, gorillas, and other wonders of the sea and land. The live, interactive lessons bring the wonders of marine science right into the classroom. Using a toll-free number (1-800-23SHAMU), students have their questions answered by experts during the program and every day from 9:00 am to 4:30 pm. The schedule will be announced in the monthly *ITV Update*. Visit the program's Web site at <http://www.shamutv.com/>. (© 2009–2010)

Rights: Limited off-air/no tape duplication for three years from original broadcast date. Lessons for 2009–10 can be retained until September 2011.

Slim Goodbody's Daily Almanac [CC]
Grades K–5 5 Minutes/365 Lessons 031

These five-minute programs each contain five unique, short segments that will stimulate your students' thinking and support teaching objectives in social studies, language arts, science, math, civics, and character education. Using music, archival visuals, original artwork, photos, and animation. Information is presented in a lively format for students in grades K-5. Also recommended for use by older special needs students. (© 2007)

Rights: Unlimited broadcast/off-air record (no tape duplication)

NOTE: There is one lesson for every day of the year. We will block feed them as they become available. Catalog numbers will be listed in the monthly *ITV Update*. Please check the monthly *ITV Update* and the *Updated Block Feed Summary* found at www.itv.myetv.org.

Social Studies (Fairfax Network) SL NEW
Grades 4–12 30 Minutes/5 Lessons 973

This series contains programs on various social studies topics that excite and interest students. Programs include: *America on the Move-Migrations, Immigrations and How We Got Here; Shaping the Presidency; Lewis Latimer: Renaissance Man; and Nation to Nation.* (© 2004-09)

Rights: Unlimited

Stargazing

Grades 6–12 29–31 Minutes/6 Lessons **SL [CC]** 523.8

This series is a guide for the student to get to know the night sky. Students will learn why the stars and constellations move across the heavens. These six lessons identify the major stellar formations that are visible in the northern and southern hemispheres such as Orion, Andromeda, Cygnus, and Centaurs. Discover how we know what stars are made of by their light. The lessons explain the pattern of movement by the planets and why comets, asteroids and meteors hurdle through the sky. This exciting series will make the night sky come alive. (© 2002)

Street Skills

Grades 9–12 26 Minutes/4 Lessons **[CC]** 371.4

The leading cause of death for teenagers, car crashes claim twice as many lives as homicides and nearly three times as many as suicides. Crashes often result from carelessness and poor judgment—many could be prevented. This series takes teens on an exciting ride while teaching them to be safer, more responsible drivers. It is a fuel-injected, high-octane, turbo-charged safe-driving series with a serious message: "Driving can be fun. Driving can mean freedom. Driving can be fatal." The programs use contemporary music, fast edits, and MTV-style videography to get to the mechanics, physics and psychology of driving. Each program is a blend of documentary footage and scripted presentation, featuring experts who speak about different aspects of driving. (© 1997)

Taking Charge in Meadowland

Grades K–3 29–33 Minutes/2 Lessons **SL [CC]** 372.86

"Take charge of your health" is the theme of this resource that encourages young students to develop healthy habits. Entertaining and interactive, this program focuses on proper nutritional guidelines by promoting five or more fruits and vegetables each day. Acknowledging that children enjoy eating "junk food," the lesson develops the concept of MODERATION in quantity and quality of foods. Through the creative characters of two mice, Chloe teaches Hugo about proper exercise and diet. The dangers of eating poorly without exercising are highlighted as the cat character chases the mice in Meadowland. The keys of a healthy lifestyle are taught in an active, entertaining way that will be clearly understood by the younger student. The second lesson is the same except with "activity" stop points that correspond to the online tool kit. Check the ITV Web site for more information. (© 2005)

Tick Tock Minutes **SL**

Grades P-K-3 1 Minute/35 Lessons Various

This series is perfect for use in school morning news programs, as all segments are exactly one minute, entertaining and feature important useful messages. The first 15 lessons focus on the benefits of good health. The next five feature good advice about the environment. In the next five lessons, Dr. Tick Tock sings about the compass, globe and Dewey decimal system. Then, he discusses the importance of good manners for five lessons. In the last five lessons, Dr. Tick Tock talks about remote sensing in weather forecasting, medical imaging, underwater and space exploration, the magic of TV, and global positioning using satellites. Individual lesson titles are listed for your information; however, there is only one catalog number. (© 2002)

Underground Railroad: Escape From Slavery, The SL [CC]
Grades 6–8 25 Minutes/1 Lesson 975.04

This program examines the institution of slavery from capture to life on Southern plantations. Students learn how slaves lived, how they were treated, what type of work they did, and why they wanted to escape from a life of bondage. The road to freedom through the network of people who offered food, safety and shelter is highlighted addressing the impact of major milestones in history on slavery. The program reveals how Northern sympathies against slavery were heightened through such major milestones as the Dred Scott decision and the publication of Harriet Beecher Stowe's book. It also addresses the impact that abolitionists, like Frederick Douglass and Sojourner Truth, had on teaching Americans about the realities of slavery. (© 1998)

Understanding Cells SL [CC]
Grades 6–12 41 Minutes/1 Lesson 574.87

Beautiful images of living cells are combined with colorful animation to present a detailed look at the role of cells in all living things. "Life and Cells" explains the unique characteristics common to all living things and defines cells, the basic units of life. Students learn how cells join together to create tissues, organs, organ systems, and whole organisms. "How Cells Work" examines the internal organization of cells and explains the functions of each subcellular organelle. The role of DNA and the genetic code are also presented. "How Cells Reproduce" shows how DNA is replicated and outlines the basic stages of mitosis and meiosis. (© 1998)

U.S. Flag: Proper Use

Grades 4–12 7 Minutes/1 Lesson SL [CC] 355.1

Produced by ITV with ETV, this short program provides information on displaying the United States Flag properly both at school and at home. This program was produced with the assistance of the award-winning Junior Airforce ROTC unit at Spring Valley High School. The topic was requested by a group of school district technology coordinators and the program was developed to meet this need. To find in *StreamlineSC*, use search term "flag." (© 2002)

5. The Genetic Code and Its Translation	4101-0005	14:46

Voices & Visions

Grades 10–12 58 Minutes/13 Lessons 808.1

The major objective of this series is to help students develop a greater enjoyment and understanding of poetry. Each lesson concentrates on the work of a particular poet—Robert Frost, Ezra Pound, Langston Hughes, Walt Whitman, Hart Crane, William Carlos Williams, Emily Dickinson, Marianne Moore, T. S. Eliot, Wallace Stevens, Elizabeth Bishop, Robert Lowell, or Sylvia Plath. The design and sequence emphasize the relationships of the poets and their works, their influences on each other and on those who followed, and their places in American literature. (© 1988)

NOTE: Copies of this series cannot be retained except at taping centers. Teachers are advised to preview lesson 4 for scenes and content that may not be appropriate for use in their classrooms.

Rights: Unlimited broadcast/off-air record (no tape duplication)

What's Wrong With This Picture? SL [CC]
 Grades 5–12 18 Minutes/1 Lesson 973

On a good day, there are over 8 million stories in New York City. September 11, 2001 was not a good day. Jason Kessler is a filmmaker who lives less than a mile from what was once the World Trade Center. This is a film about what he saw when he left home one morning and looked up. What he saw and heard during the days and nights that followed in the no-longer-familiar streets of his hometown are what are included in this powerful, very moving and ultimately uplifting documentary. (© 2001)

When Rice Was King SL [CC]
 Grade 8 58 Minutes/1 Lesson 975.7

Produced by ETV, this special tells the fascinating story of the rise and fall of rice-growing in South Carolina and its impact on the state. It provides insight into an important chapter in the state's history. The cultivation of rice began in the late 1600s, and by the time of the American Revolution, it had created a large concentration of wealth from Georgetown to the Savannah River. The program illustrates how the knowledge and labor of slaves from Africa's windward coast was a major factor in this success. (© 1999)

1. When Rice Was King	0039-0112	57:16

Wordscape [CC]
 Grades 4–6 15 Minutes/16 Lessons 418

Building and enriching vocabulary is a critical skill. The basis of such a skill is an awareness of word elements, or "cells," of which many words are built. These lessons help students as they make the transition from language conceived as print, and place the skill of vocabulary-building in the larger framework of children's linguistic development. Children learn to build new vocabulary on words that are familiar, or at least accessible, to them. They are introduced to the varied cultural roots of English words—not only Latin, Greek, French, and Germanic, but also Spanish, West African and American Indian. The lessons introduce and teach about 200 new words. (© 1990)

World of Ancient Rome, The SL
 Grades 6–12 22 Minutes/1 Lesson 937.01

Students learn about the once all-powerful Rome and its Empire. This lesson highlights the many contributions that Rome made to modern civilization. Through live-action footage from the city of Rome and Roman provincial towns in Britain and from archival material, students learn about Rome's humble beginning in 753 B.C., its forms of government, the Pax Romana, and the division of the Empire and fall of Rome in 476 A.D. Roman architecture, religion, entertainment, engineering, Hadrian's Wall, slavery, and the relationship between Christianity and Rome are probed to provide student with extensive knowledge of this enlightening period in history. (© 1994)
