Higher Goals
 Grades 7–12 27 Minutes/1 Lesson 371.8

This lesson presents the real-life stories of two high school athletes who face the conflicts of balancing their dreams of professional basketball careers with the realities of graduating from high school and going on to college. The program shows how practice and discipline, which stimulate success in sports and other activities, can be applied to academics as well. This series features NBA superstar Isaiah Thomas, ex-college star Skip Dillard, and SATURDAY NIGHT LIVE performer Tim Meadows as “Dexter,” a fictional player whose comic misadventures dramatize the lesson’s message. History Matters

Grades 9–12 15 Minutes/1 Lesson 303.6

This lesson helps high school students understand the value of learning from the past to make decisions today. Students see a real-life example of people using their knowledge of the past while struggling with a major financial decision. The lesson is taught using the story of a high school student faced with a decision to spend his life's savings on a car, or to use the money to help his mother and grandfather modernize the family farm. In the end, he makes his decision based on his family's successes and mistakes. Weighing all information carefully, he decides to contribute to the business that has been his family's livelihood. By witnessing the conflict faced by a member of their peer group, students learn that giving up short-term gains is sometimes necessary to reach long-term goals. (© 1987)

Holiday Specials

Grades K–12 Minutes TBA/Lessons TBA 394.2

Each year, Instructional Television broadcasts a series for holiday viewing for use in the state's public schools. Included are programs produced by South Carolina ETV, as well as programs acquired from across the nation. A block feed of these special programs is scheduled for November, and repeats again in December. A specific schedule for these programs will be included in the November/December *eMedia Update*, which will be mailed to all schools in October. (© Various)

Rights: Will be announced with the schedule

Block Feed Only – All series are scheduled as BLOCK FEEDS. The schedule is in the monthly *eMedia Update* and in the Updated Block Feed Summary found at www.emedia.scetv.org.

Holocaust Remembrance Specials SL [CC]
Grades 5–12 27–33 Minutes/2 Lessons 940.531

Paul Argiewicz: Holocaust Survivor shares a personal history of courage. **Dum Spiro, Spero – While I Breathe, I Hope** features students from the Governor's School of the Arts and Humanities, using music, dance and the spoken word to teach about the Holocaust and the power of the human spirit. Idella Bodie's Ghost Tour – A SL [CC]
WRITER'S GUIDE with the Author
 Grade 4–6 42 Minutes/1 Lesson 372.623

This program offers everyone the opportunity to learn from Idella Bodie, renowned South Carolina children's author, as she shares her love of reading and writing through her own creative process. She examines the key components of a good story in the step-by-step process of bringing a story to life through her book, *The Mystery of the Pirate's Treasure*. Beginning with research, Mrs. Bodie stresses the importance of doing your "homework" when selecting a location and characters. She emphasizes the value of making an organized plan – the plot. What a wonderful opportunity to hear the writing process explained by a well-known children's author! (© 2006)

Junior Electrician **SL**
 Grades 1–4 15-30 Minutes/4 Lessons 537

The four lessons explore the impact of electricity on our world. Sources of electrical production are shown and discussed as well as our dependency on electricity in everyday life. The atomic structure of current and static electricity are demonstrated. Principles of current electricity, circuits, switches, and circuit breakers are illustrated. Conductors and insulators are also discussed. Examples of static electricity demonstrate how electrons move from one atom to another attracting and repelling other objects. The Van de Graaf generator illustrates this principle. The relationship between magnets and electricity is presented tracing the history of the magnet from the early Greeks. This series is packed with demonstrations for the younger student to assist them in understanding the principles of electricity and magnetism. (© 2002)

Just for Me
 Grades 2–4 15 Minutes/6 Lessons 613.8

Schools can be a vital force in tobacco, alcohol and other drug-use prevention education by helping children understand the nature of drugs and the steps they can take to prevent drug use. These programs help students develop the knowledge, attitudes, skills, and behaviors identified by health educators and prevention experts as necessary to avoid drug use. Other video and print materials are available to help teachers use the student videos effectively and to incorporate older students (peer helpers) into the comprehensive drug-use prevention program. Letter TV **SL [CC]**
 Grades PK–1 5 Minutes/26 Lessons 372.4

This series teaches letter recognition and sound association. In addition to teaching the common sounds associated with the letters of the alphabet, programs also help children sight-read common words and build confidence and excitement for reading. Every episode introduces some important cross-curricular content that can be developed into a broader learning activity in class. Other lessons focusing on letter combinations and reading rules can be found in LETTER TV II & III. (© 2000)

Lewis and Clark Expedition, The SL [CC]
Grades 5-12 20 Minutes/1 Lesson 978.02

This program involves the viewer in the excitement, the danger and the sense of wonder that was the Lewis and Clark Expedition. The voyage of discovery was a two-year journey that embodied the best of the American spirit. Individual integrity, strong leadership, scientific curiosity, and uncommon bravery assured the success of the venture. Students learn about the respect the expedition showed for the native people they encountered and the skills at living in the unexplored wilderness they exhibited. (© 1992)

Making of a Continent I & II, The
 Grades 6–8 27–33 Minutes/13 Lessons 550

The first six lessons in this series describe and show the traumatic geological events that led to the shaping of the North American continent. Much of the area west of the Rocky Mountains was formed elsewhere in the Pacific. Large areas of land have been rafted on the ocean floor to their present positions, and could conceivably shift again at some time in the future. Forged by titanic mountain-building processes and filled with an enormous variety of wildlife, the land changed as man's understanding grew and settlers learned to adapt from the ways of the Old World to the new. What had been known as "The Great American Desert" became the most productive food-producing area on earth. The lessons tell the story of that development. (© 1986)

Making the Thirteen Colonies **SL [CC]**
 Grades 4–12 30 Minutes/3 Lessons 973.1

The stories of the Southern Colonies, Virginia, Maryland, Georgia, North and South Carolina, begin with England's first attempt at colonization on Roanoke Island in the 1580's. This lesson examines the motivations for founding each southern colony and the problems colonists faced. The role of slavery, conflicts with Spain, colonial exports, difficulties with the American Indian and methods of government are addressed in this program. The Middle Colonies of New York, New Jersey, Delaware, and Pennsylvania originally colonized by settlers from Holland and Sweden then were seized by England. Special emphasis is given to the impact of William Penn on this area. The New England colonies of Massachusetts, New Hampshire, Connecticut, and Rhode Island all share Puritan roots. Examining the origins and beliefs of the Puritan religion explains why Puritans were persecuted in England and why they wanted to settle in America. Emphasis is given to the Pilgrims of Plymouth and the founding of Massachusetts. These three lessons provide a rich background of the original colonies. (© 2003)

Math in the Middle of Music, Oceans, Nature, Motion, Design

Grades 6–9 12–23 Minutes/60 Lessons 510

This series provides the opportunity and resources to explore mathematics applications in a real-world context, and to link mathematics to other curriculum areas, including science, music and more. It features selected guests who talk about how they use math in their jobs. (© 1985)

Rights: Unlimited

Math in the Middle...of Music

Lesson Title	Cat. No.	Length
1. Counting	1991-0001	19:33
2. Rhythm	1991-0002	19:45
3. Sound	1991-0003	18:46
4. Frequency and Vibration	1991-0004	19:44
5. Wind Instruments	1991-0005	18:36

59. Motion in the Air	1991-0059	19:30
60. Motion in Space	1991-0060	21:41

Math Monsters

Grades K–2 14–15 Minutes/11 Lessons 510

This series is designed to meet and support their national standards for math instruction. While individual programs focus on what is called a “Big Idea”—data collection, patterns, measurements, etc.—at least four teaching standards are interwoven into every show. Additional lessons can be found in *Math Monsters II*. (© 2000)

Rights: Unlimited broadcast/off-air record (no tape duplication)

Lesson Title	Cat. No.	Length
1. Data Collection	2898-0001	14:31
2. Standard and Non-standard Measurement	2898-0002	14:43
3. Number Conservation, Transformation...	2898-0003	14:27
4. The Making of Tens	2898-0004	14:31
5. Geometry	2898-0005	14:51
6. Mental Math: Doubles...Their Neighbors	2898-0006	14:11
7. Mapping	2898-0007	14:33
8. Time	2898-0008	14:31
9. Patterns	2898-0009	13:59
10. Counting and Symbolizing	2898-0010	14:01
11. Computers	2898-0011	14:31

Math Monsters II

Grades K–2 15 Minutes/3 Lessons 510

An addition to the already popular *Math Monsters* series, this series deals with other important mathematics topics for young learners. Developed in cooperation with the National Council of Teachers of Math, these lessons support national standards for mathematics instruction. (© 2000)

Rights: Unlimited broadcast/off-air record (no tape duplication)

Lesson Title	Cat. No.	Length
1. Landmark Numbers	4093-0001	15:00
2. Estimation	4093-0002	15:00
3. Area and Arrays	4093-0003	15:00

Block Feed Only – All series are scheduled as BLOCK FEEDS. The schedule is in the monthly *eMedia Update* and in the Updated Block Feed Summary found at www.emedia.sctev.org.

Math Talk [CC]
Grades 4–6 15 Minutes/20 Lessons 510

Each lesson in this series features and concentrates on a specific mathematical topic in one of four strands: number sense, geometry, measurement, or probability and statistics. With solid mathematical activities and an emphasis on problem-solving, reasoning, communicating, and making curricular connections, this series helps teachers meet the content standards of the South Carolina Mathematics Framework. (© 1994)

Rights: Unlimited broadcast/off-air record (no tape duplication)

20. What Shape Is Your Number?	1968-0020	14:14

Math Works
Grade 5 14–16 Minutes/28 Lessons 510

This series strengthens instruction in fifth-grade math within a problem-solving framework. It is a sequel to the fourth-grade series *It Figures*. (© 2000)

Rights: Unlimited in perpetuity

Lesson Title	Cat. No.	Length
1. Measurement: Finding Areas of Rectangles	0036-0001	15:21
2. Problem-Solving: Identifying the Problem	0036-0002	13:23
3. Mental Computation: Mental Computation for Addition	0036-0003	14:33
4. Decimals: Place Value in Decimals	0036-0004	14:26
5. Geometry: Exploring Geometric Shapes	0036-0005	14:06
6. Estimating: Estimating by Rounding	0036-0006	14:21
7. Problem-Solving: Simplifying the Problem	0036-0007	14:30
8. Decimals: Relating Fractions and Decimals	0036-0008	14:33
9. Measurement: Difference Between Perimeter & Area	0036-0009	14:54
10. Problem-Solving: Using Tables	0036-0010	14:46
11. Fractions: Adding and Subtracting Fractions	0036-0011	14:39
12. Statistics: Sampling	0036-0012	14:37
13. Geometry: Exploring the Movement of Objects in Space	0036-0013	14:38
14. Problem-Solving: Looking for a Pattern	0036-0014	14:46
15. Decimals: Comparing Decimals	0036-0015	14:31
16. Problem-Solving: Using Diagrams and Models	0036-0016	14:27
17. Mental Computation: Mental Computation for Subtraction	0036-0017	14:48
18. Place Value: Place Value of Large Numbers	0036-0018	14:47
19. Estimating: Other Estimation Strategies	0036-0019	14:17
20. Fractions: Unlike Denominators	0036-0020	14:50
21. Statistics: Collecting Data	0036-0021	14:50
22. Problem-Solving: Using Graphs	0036-0022	14:39
23. Probability: Possible Outcomes	0036-0023	14:54
24. Decimals: ...Placement of Decimal	0036-0024	14:25
25. Measurement: Regions into Subregions to Find Area	0036-0025	14:15
26. Statistics: Analyzing Data	0036-0026	14:50
27. Ratio: Forming Ratios	0036-0027	14:39
28. Problem-Solving: Using Maps	0036-0028	14:49

Media Mania
Grades 2–4 17–19 Minutes/4 Lessons 025.58

This series presents the media center as an inviting, friendly room where learning takes place as students read, browse and examine materials. The media specialist is shown as a helpful, concerned teacher who is always willing to assist students in their use of media center materials. The programs feature Mortimer, a lovable media monster puppet, Annie and the other kids learning about card catalogs, the Dewey decimal classification system, fiction and nonfiction books. They also learn how to conduct research in the center's reference section. (© 1996)

Rights: Unlimited broadcast/off-air record (no tape duplication)

Lesson Title	Cat. No.	Length
1. Fiction/Nonfiction	2512-0001	18:07
2. Card Catalog	2512-0002	17:55
3. Research	2512-0003	18:12
4. Reference	2512-0004	16:55

Meet the Author SL [CC]
Grade K-12 30 Minutes/30 Lessons 808

This series promotes literacy and an interest in reading and writing and features an award-winning author who discusses his or her work for children or teens (*each program is designed for a specific age group depending on the book discussed) and important components such as character, plot, the writing process, etc. (© 2005-2011)

Mexican War, The SL [CC]
 Grades 5–12 18 Minutes/1 Lesson 972.05/973.62

The war between Mexico and the U.S. that occurred between 1846 and 1848 resulted in a huge amount of Mexican land becoming American territory. California, New Mexico, Utah, Nevada, Arizona, and parts of Colorado and Wyoming are now part of the United States directly as a result of this war. This interesting program tells the story of this important, but often overlooked, conflict. (© 2001)

Lesson Title	Cat. No.	Length
1. The Mexican War	1476-0001	17:08

Mia's Music SL [CC]
 Grades 5–9 14–17 Minutes/6 Lessons 781

In this series Mia is working in Pop's Music Store for the summer. She is also writing her very first original musical composition. There is so much she still needs to learn before she finishes her piece and with the help of a spunky animated character named Tempo. She is about to learn more than she bargained for! Mia receives special visits from well know composers and songwriters like Sebastian Bach, Woody Guthrie and Scott Joplin. (© 2003)

Middle Passage Voyage, The SL [CC]
 Grades 5–10 37–58 Minutes/4 Lessons 910

Captain Bill Pinkney invites students to come along on his extraordinary trip retracing the original slave trade route from Africa to the Americas. This series is an unprecedented project that explores the music, history and culture that African slaves brought to the Americas. The first program focuses on Captain Pinkney, who is an excellent role model. Having grown up in inner-city Chicago and worked as an executive in New York, he was the first African American to sail around the world. The second program takes students aboard the ship for the 3,700-mile journey across the Atlantic to the Americas. The last two programs highlight the entire voyage and its culmination in Charleston, South Carolina. (© 2000)

Military Career Pathways of Today's Soldiers SL NEW
 Grades 6–12 27 Minutes/4 Lessons 355

This series features US Army soldiers who represent six career pathways – Gov. & Public Admin.; Human Services; Law, Public Safety, Corrections & Security; STEM; Business Management & Admin.; and Ed & Training – in a discussion about career decision making and advising, mentoring, ROTC and JROTC, and financial benefits. (© 2011)

Lesson Title	Cat. No.	Length
1. Motivational Factors for Military Career Choice	3260-0001	26:12
2. Education and Training for Military Careers	3260-0002	26:48
3. Career Management and Mobility in the Military	3260-0003	26:49
4. Soldiers' Advice Considering Military Careers	3260-0004	26:55

Mighty Me Training Camp SL [CC]
 Grades K–2 37 Minutes/1 Lesson 372.86

This program is an educational exercise program that encourages the student to become his or her best self through physical activity. The program makes kids stand, shake and shout! It creates a fun and exciting way for children to move and encourages family or group participation. When physical activity is enjoyable at an early age, it will instill a commitment to movement and an appreciation for how much better it makes one feel throughout life. (© 2003)

Lesson Title	Cat. No.	Length
1. Mighty Me Training Camp	1242-0001	36:12

Mochila al hombro: English Version
 Grades 8–12* 23–26 Minutes/24 Lessons 460

This series is the same as the Spanish version, but in English. Since the level of language in the Spanish version may be too difficult for lower-level high school Spanish students, the English version can be a valuable cultural resource for Spanish I and II courses. Produced by Mexican Public Television, the series follows a photographer through his travels to the Mexican states, offering students a geographical and historical tour of Mexico. (© 1998)

Block Feed Only – All series are scheduled as BLOCK FEEDS. The schedule is in the monthly *eMedia Update* and in the Updated Block Feed Summary found at www.emedia.sctv.org.

Rights: Unlimited broadcast/off-air record (no tape duplication)

***NOTE:** This series is recommended for Spanish I and Spanish II courses.

Mochila al hombro: Spanish Version
 Grades 9–12* 23–26 Minutes/24 Lessons 460

Produced by Mexican Public Television, this series is recommended for use with high school Spanish students in higher-level courses. Following a photographer on his travels to the Mexican states, the series takes students on a geographical and historical tour of Mexico. All programs are very rich in culture and can serve as an excellent resource for high school Spanish III and AP courses. The series is also available in English for teachers to use as a cultural resource with lower-level classes. (© 1998)

Rights: Unlimited broadcast/off-air record (no tape duplication)

***NOTE:** This series is recommended for Spanish III and AP Spanish courses.

Money and Power:

The History of Business SL
 Grades 9–12 91 Minutes/1 Lesson 332

This CNBC original original program chronicles the economic environment from the 11th century through the end of the 20th century, illustrating parallels between powerful leaders, from Marco Polo to Bill Gates, that have caused significant shifts in the growth of commerce. Some of the people and personalities featured include: the inventor of the steam engine; one of the founding partners of the Central Pacific Railroad; Henry Ford; J.P. Morgan; and John D. Rockefeller. (© 2001)

Moral Courage [CC]
 Grades 5–12 28–55 Minutes/7 Lessons 940.548

According to the ancient Jewish text, the Talmud, “He who saves one life, it is as if he saves humanity.” This series profiles these ancient courageous people. Producer Sy Rotter says, “We believe that by identifying ordinary people who become extraordinary through their acts of great personal courage, we underscore the importance of a shared commitment to universal human values.” These programs use historical newsreel footage to provide students with the background of what was happening in a specific European country during World War II. Each program transitions to that country, introducing us to the one person who made decisions that impacted not only his or her life, but also the lives of others. (© 2000)

Native-American Folktales

Grades 4–8 24 Minutes/1 Lesson

SL [CC]
897

Full of music and colorful animation, this program presents four tales from different Native-American groups. The stories assist the students in understanding the culture and experiences of Native Americans. "Storytelling Stone," from the Seneca tribe of the northeastern woodland area, explains how stories first came to humans. "Pelican Girl" comes from the Pacific Coastal Miwok group. It encourages children to obey tribal rules. "The Boy Who Loved Bears" comes from the Pawnee, a Plains group. This beautiful tale helps children recognize the deep bond between Native Americans and nature. "The Turkey Girl" comes from the Pueblo culture of the Southwest. It shows the importance of trust in Pueblo culture. (© 1997)

Our Human Body

Grades 7–12 13–15 Minutes/10 Lessons **SL [CC]** 611

This series focuses on the biological factors that create and personalize our bodies, help us function, keep us well, and make us ill. Target-age students ask common questions about the body, finding the answers in revealing video footage and helpful computer graphics. A review ends each lesson and prepares students for classroom discussion and follow-up activities. (© 1993)

Oxygen: What a Gas! **SL [CC]**
553.9
Grades 5–12 14–15 Minutes/2 Lessons

Introduces the chemistry, biology and science history of oxygen while conveying and reinforcing rigorous content through informative, humorous graphics and songs. Lesson 1 covers the chemistry of oxygen, beginning with the composition and function of the atmosphere, the historic experiments of the 17th and 18th centuries that led to the discovery of oxygen, covalent and ionic bonding, and the modern manufacture of oxygen. Lesson 2 explores the biology of oxygen via human respiration and circulation and explains the effects of low oxygen at high altitudes, comparing them to oxygen deprivation due to heart and lung disease, as well as human and animal adaptation to low-oxygen environments. Phonics in Context

Grades K–2 14–58 Minutes/10 Lessons 372.414 **SL**

Learning to read is an exciting time for students. These lessons highlight the basic concepts of the reading process in an entertaining manner with catchy rhymes and songs recognizing the different ways in which students learn. Designed especially for beginning readers, young students take a trip to the zoo where they learn to associate the name and sound of each letter of the alphabet with a zoo animal. Taking a fun trip with Pencil Power, students are introduced to long and short vowels. Students are also taught to use clues to assist them in the reading process. Students learn word patterns through rhymes and songs. Graphic animations and sound effects introduce linguistic patterns to the beginning reader. Making reading fun is the goal of these lessons. (© 1997)

Physical Science Series

Grades 5–8 18–19 Minutes/7 Lessons 541.3 **SL* [CC]**

This series presents a detailed review of the important concepts in physical science relating to matter and basic chemistry. It covers the major topics outlined in the National Science Education Standards and AAAS Benchmarks for Science Literacy. The series features Dr. Brian A. Jerome, a scientist and teacher with the National Geographic Society's JASON Expedition and an expert on science curriculum design and implementation. Shot on location in a variety of enticing places, the programs also feature illustrative graphics and mathematical formulas. Each program contains a video quiz after the presentation. *Most titles are available in StreamlineSC. (© 1998)

Rights: Unlimited broadcast/off-air record (no tape duplication)

Pyramids
 Grades 5-9 19-20 Minutes/3 Lessons 516.15

This school version of the popular prime-time series is based on the book by David Macaulay. He takes us on a voyage of discovery to see and feel the mystery, romance and overwhelming splendor of ancient Egypt and the pyramids during the Fourth Dynasty of the Old Kingdom. Incorporating animated storytelling with live-action documentary sequences, the series chronicles the building of the pyramid of King Khufu. Viewers are taken on a remarkable journey through the archeological remains of Egypt, exploring several important pyramid sites in the Valley of the Kings, including rare footage from the Egyptian Museum in Cairo. (© 1994)

Road Trip! Through SC Civil

SL REV [CC]

Rights History

Grades 3-12 27 Minutes/3 Lessons

975.7043

These programs focus on events, places and people who played an important role during the civil rights movement in SC from the 1940s through the early 1970s. **Road Trip! Mid State** includes the home of Modjeska Simkins and a visit to historic Liberty Hill AME Church. **Road Trip! Coastal** visits the Penn Center in Beaufort County and historic Atlantic Beach. **Road Trip! Upstate** discusses the Friendship 9 and tells the story of Harvey Gantt, a black man that petitioned to attend an all white University. (©2007)
